PAPERLESS

A grayscale photograph of a person in a white shirt sitting at a desk, typing on a laptop. A smartphone is visible on the desk to the right. The image is dimly lit and serves as a background for the text.

1998

The background features a complex, abstract molecular structure composed of interconnected nodes and lines, rendered in shades of gray and black. The nodes vary in size, and the lines represent bonds between them, creating a network-like pattern that spans the entire width of the image.

VIRTUAL DATA EMBASSY E-ESTONIA

Estonia sets up “data embassy” in Luxembourg

The data centre will store critical data and make it harder to attack Estonia’s systems.

By Nurfilzah Rohaidi

4 MAY 2017

SECURITY

Estonia is on track to start storing government data in a “data embassy” in Luxembourg, it was reported.

EUROPE NEWS

[UNITED KINGDOM](#) | [RUSSIA](#) | [GERMANY](#) | [FRANCE](#) | [EUROPEAN UNION](#)

Estonia is unconcerned about a possible Russian cyberattack, president says

- Estonia became the first country to use blockchain on a national level
- It invests 20 million euros (\$22.85 million) into e-health programs each year.
