Bug Bounty Programs are much more than just getting on a platform.

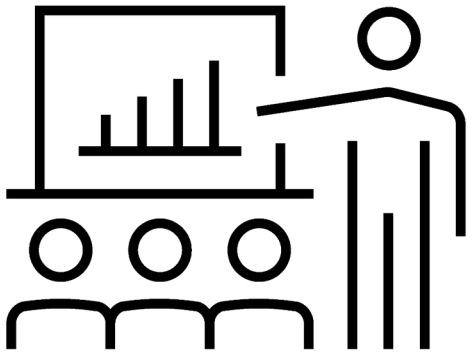
What hinders many companies

- Missing Skills
- Missing Experience
- Missing Resources
- Missing Structures
- Missing Mindset

We are making bug bounty programs accessible.

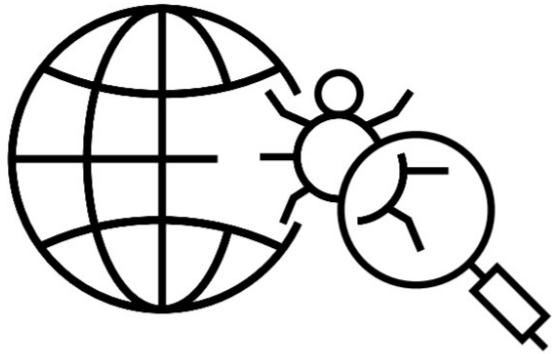
We provide a Bug Bounty Ecosystem

Consulting



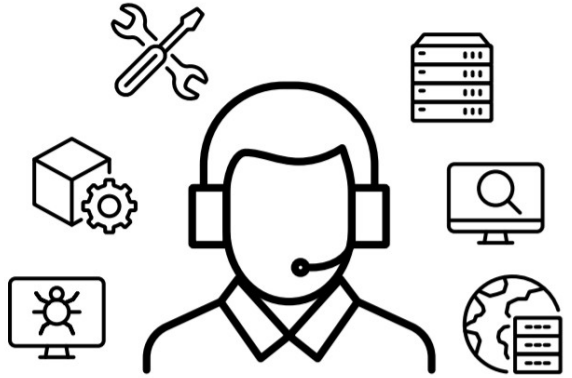
Enablement
Communication
Transformation

SaaS Platform



Collaboration
Actionability
Intelligence

Managed Services



Program Steering
Community Building
Operations and Triage

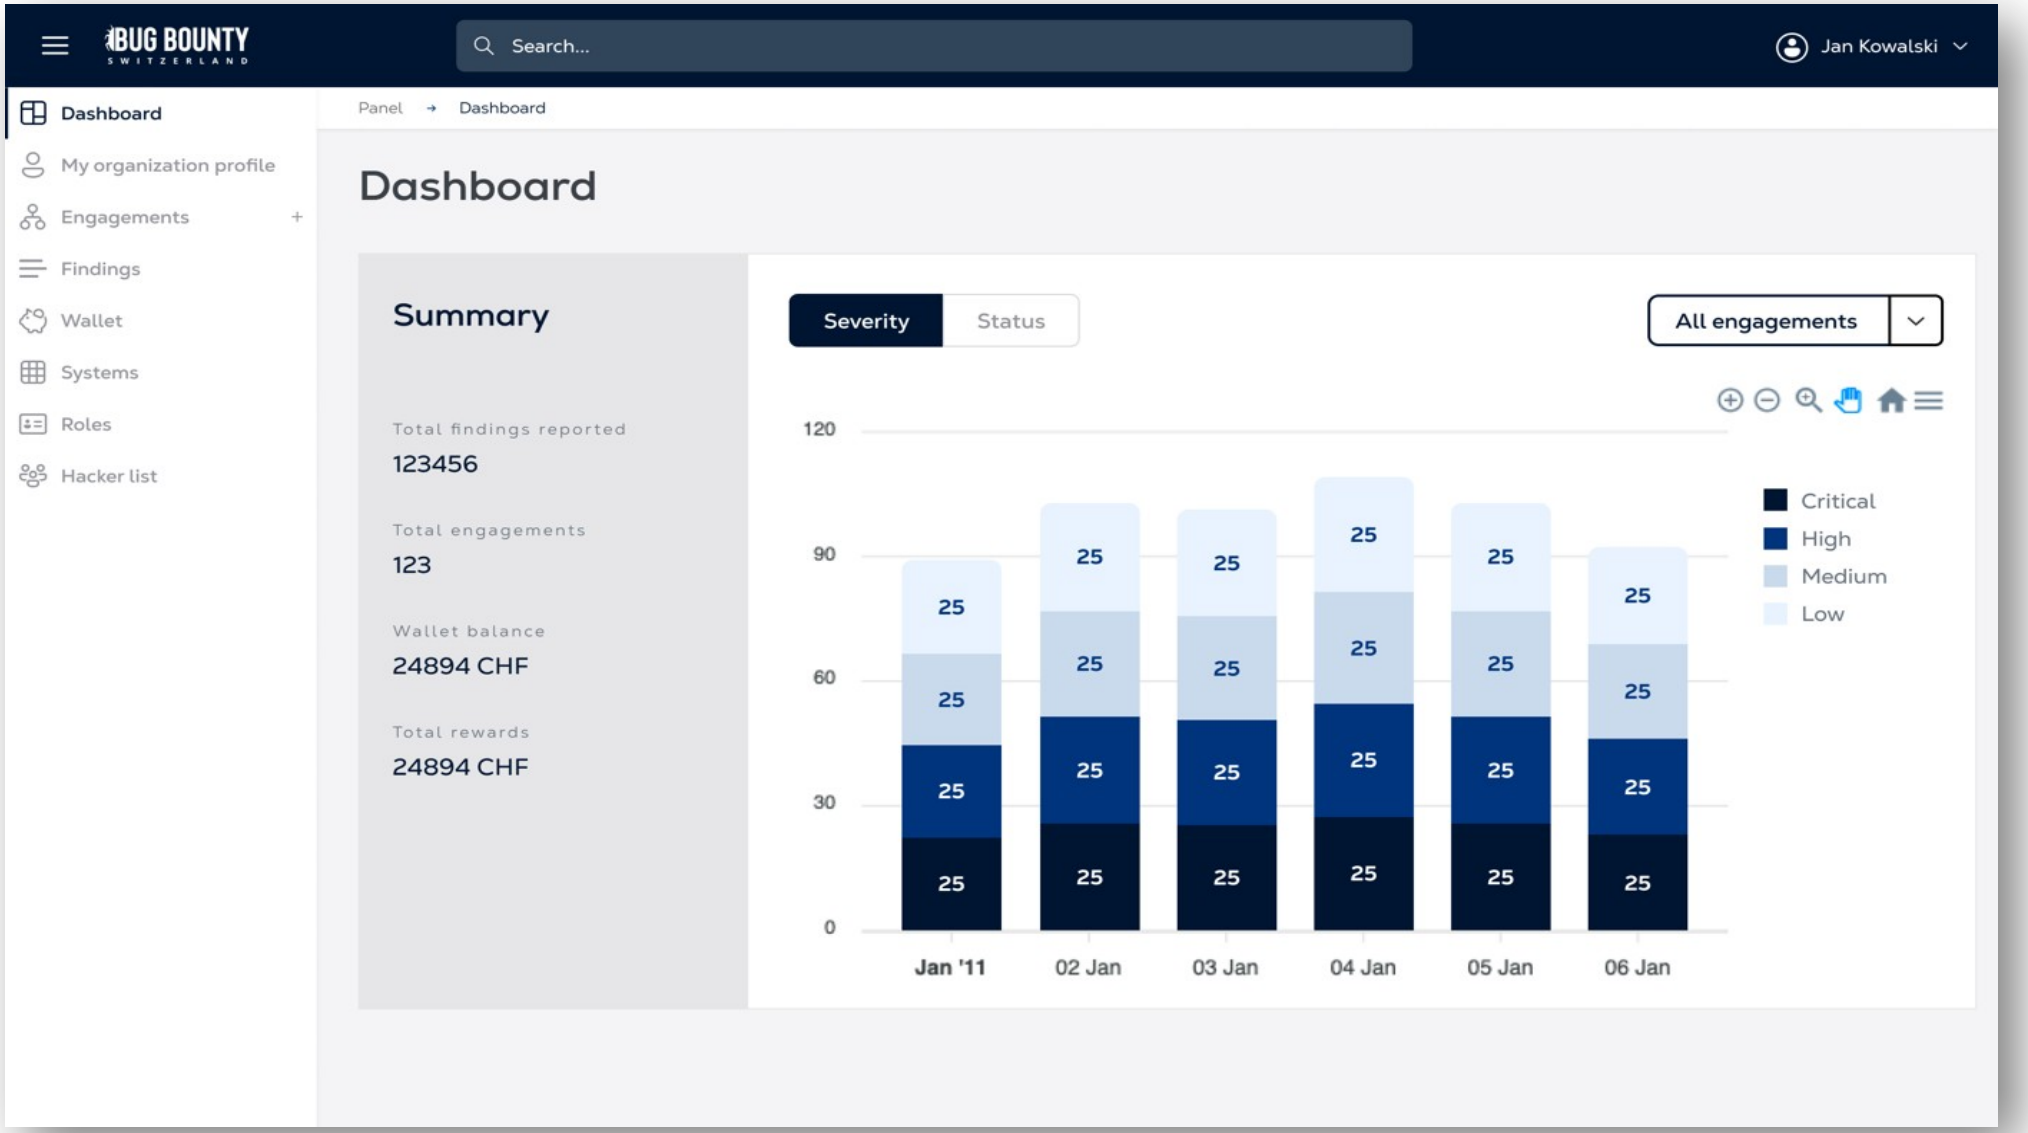
Switzerland needs the holistic approach of an ecosystem.

Collaboration beyond organizational borders

Would it not be nice?

- Frictionless
- Most efficient
- Transparent
- On all hierarchy levels
- Beyond organizational borders

Bug Bounty Switzerland SaaS Platform



Vulnerability Collaboration

- Central overview vulnerabilities & processes
- Decentralized processing & remediation
- Mapping of team structures & organizational units
- Seamless integration into existing tooling
- Promotes real actionability for all users
